## **ELECTRICAL AND ELECTRONIC ENGINEERING ADVANCED APPRENTICESHIP**

### **COURSE OVERVIEW**

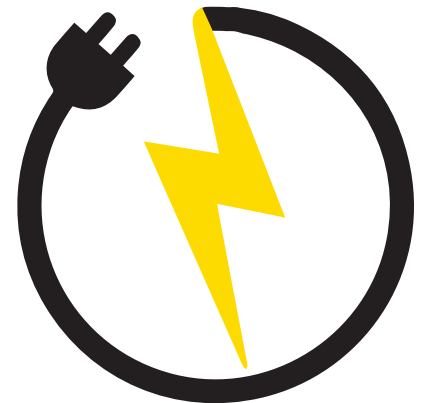

This Apprenticeship is for those seeking to work in the electrical or electronic industry and cover the advanced knowledge and understanding of the principles, methods and technology involved in electrical and electronic engineering. The choice of various subject pathways means the learning programme can be tailored to various needs. Electrical and Electronic Engineering is probably the broadest and most dynamic of the engineering disciplines. This Apprenticeship would be suitable for anyone who is looking to work as an Electrical and Electronic Engineer, Engineering Maintenance Technician.

### **TRAINING BENEFITS**

On completion of this 3-4 year programme, Apprentices will develop the skills, knowledge and competence needed to carry out the duties of an Electrical / Electronic Technician in the workplace.

### **WHAT GETS COVERED?**

- Level 2 Functional Skills (Maths, English & IT)
- Foundation Course at an FE College
- Employment Rights & Responsibilities
- BTEC Diploma in Electrical & Electronic Engineering at an FE College
- Level 3 NVQ Portfolio (Tailored to Job Role)
