## LEVEL 3 MECHANICAL ENGINEERING & MANUFACTURING

### COURSE OVERVIEW

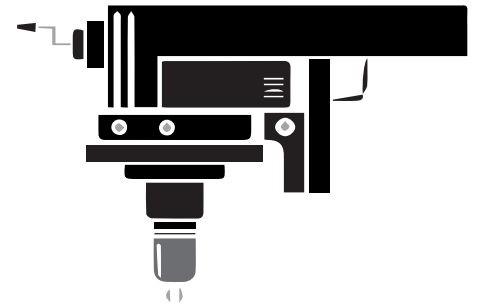

This Apprenticeship is for those seeking to work in Mechanical and Manufacturing Engineering. Pathways and unit options are chosen to suit the employer's organisational requirements. Management of the course involves continual assessment throughout the program and culminating in an end point assessment. Additionally assessment by a relevant professional institute leads to an appropriate level of professional recognition.

### TRAINING BENEFITS

This 42-48 month course commences at Level 2 Foundation competence and moves forward to Level 3 development of competence and technical knowledge. Examples of sectors we cover are: Advanced Manufacturing Engineering, Mechatronics Maintenance Technician, Product Design and Development Technician, Toolmaker and Tool and Die Maintenance Technician, and Technical Support Technician.

### WHAT GETS COVERED?

- A wide range of Engineering Disciplines
- Technical Certificate Level 3 (Day Release at College)
- Health & Safety at Work
- Employment Rights & Responsibilities

If you would like more information regarding apprenticeships or the services we provide then please contact us on 01902 713552, alternatively you can find out more information via our website.
